### **Alexin Expands Product Offering to Meet Industry Demands**

*Bluffton, IN – March 11, 2016* – Bluffton, Indiana-based Alexin, LLC is poised to expand its product offering into the automotive flat-rolled products market (FRP) with the addition of a slab casting table scheduled to be commissioned in Q4 2016. The total project cost exceeds \$2.2 million and gives Alexin the opportunity to broaden its customer and market base.

“Alexin has been a leader in the remelt billet sector since opening its doors in 2008,” stated Paul Morris, vice president of sales and marketing. “The addition of slab casting capability expands the assortment of products we can offer our customers and will help us continue to be a reliable supplier in the marketplace. We’re excited to continue offering the broadest range of cast products available in the industry and we see slab casting as a great opportunity for future growth.”

#### **ABOUT ALEXIN LLC:**

*Alexin LLC is a state-of-the-art aluminum billet extrusion casthouse located in Bluffton, Indiana. Founded in 2008, Alexin utilizes a high percentage of recycled aluminum to produce LEED® Certifiable billet. The entire facility is designed with maximum efficiency and sustainability in mind, from minimizing carbon emissions with a highly efficient natural gas system, to utilizing technologically advanced homogenizing ovens, high efficiency furnaces, and packaging lines. The fully automated casthouse offers aluminum extruders an unmatched breadth of soft alloy extrusion billet and logs in numerous lengths and diameters. Alexin has a capacity of 225 million pounds annually and currently employs over 70 team members.*
