Alexin Manufacturing Quality Management System Certified to ISO/TS 16949: 2009

Bluffton, IN – October 20, 2016 – Alexin LLC, a state-of-the-art aluminum extrusion billet and rolling ingot cast house, is pleased to announce the achievement of ISO/TS 16949 certification for their Bluffton, IN casting plant. ISO/TS 16949 is an internationally recognized Quality Management System specification for the automotive industry. This certification validates that Alexin’s development and manufacturing processes meet the highest standards for excellence in the automotive industry.

“The entire Alexin team worked hard to upgrade our manufacturing and quality systems in order to attain compliance with the ISO/TS 16949 standard and we are proud of this achievement,” said Todd Johnson, Alexin’s Vice President of Technical Services. “This achievement will help Alexin meet all of our customers’ requirements, not just those serving the automotive industry.”

###

ABOUT ALEXIN LLC:

Alexin LLC is a state-of-the-art aluminum extrusion billet and rolling ingot cast house located in Bluffton, Indiana. Founded in 2008, Alexin utilizes a high percentage of recycled aluminum to produce LEED® Certifiable billet and rolling ingot. The entire facility is designed with maximum efficiency and sustainability in mind, from minimizing carbon emissions with a highly efficient natural gas system, to utilizing technologically advanced homogenizing ovens, high efficiency furnaces, and packaging lines. The fully automated casthouse offers aluminum extruders and flat-rolled products mills an unmatched breadth of soft alloy extrusion billets, logs, and rolling ingot in numerous lengths and diameters. Alexin has a capacity of 225 million pounds annually and currently employs over 80 people.
